

Voted best new spa product of 2009 by Asia Spa Magazine, Algoterm offers a wide variety of spa products for the aspiring spa. Selected for its natural sea salts and sea minerals you can detoxify the body with a fangothérapie treatment; a mud wrap sourced from mount St.Michel in France or scrub down with a exfoliating marine scrub. The anti-aging and oxygenating facials both leave the skin glowing and rejuvenated.

Algoterm is also eco-friendly, respecting the seasonality of which it harvests the seaweed so as not to disrupt its reproduction cycle, also none of their ingredients are tested on animals.
