## Atmosphere Resorts & Spa, Dauin, Philippines

[www.atmosphereresorts.com/residences](http://www.atmosphereresorts.com/residences)

The ambiance at the Atmosphere Resort is resolutely tropical. Located in the southeast region of Negros, the resort's villas sit within an old coconut plantation alongside the warm waters of the Philippine Sea. The penthouse and apartment residences, all featuring indigenous materials along with the best in modern construction and architecture were built with comfort, style and space in mind. Light and airy interiors open up into the tropical air via sliding glass doors. The local cultural sights, famous Filipino hospitality and wealth of activities available, including diving, will appeal to families or adventurous visitors looking for a piece of paradise.

## Danang Beach Resort, Vietnam

[www.danangbeachresort.com.vn](http://www.danangbeachresort.com.vn)

The 260-hectare Danang Beach Resort is one of Vina Living's most ambitious developments, located along the Son Tra-Dien Ngoc coastal stretch in Vietnam. Recently awarded the Bloomberg Asia Pacific Award for Best Golf Development in Vietnam in 2011, it currently includes an 18-hole "Dunes Course" designed by legendary golfer Greg Norman. The project also features five residential communities: The Dune Residences (15 villas, 14 sold out), The Ocean Villas (in hand over), Norman Estates (official launch in early June), and two communities under construction, The Cham and The Beachfront Enclave. The project's beach restaurant and bar venue Rocksalt is fully operational, as is the recently completed five-star club house. A second 18-hole golf course is currently being designed together with many other facilities and residential areas. Danang Beach Resort is nestled in breathtaking surroundings with easy access to peaceful beaches, lush mountains and, of course, the golf courses.
