

#MYSEALIFEPIC BROUGHT TO YOU BY [SEALIFE-CAMERAS.COM](http://SEALIFE-CAMERAS.COM)

## SHEDDING LIGHT

Try alternate angles to truly show off a critter's character

**CAMERA** SeaLife DC1400 // **STROBES** Sea Dragon flash // **SETTINGS** f/9.6, 1/60 sec, ISO100 // **LOCATION** Dauin, Philippines // **CONDITIONS** Overcast

### #MYSEALIFEPIC

To capture this lizardfish, I rotated my camera 90 degrees so my single strobe fired from the side to enhance the shadows and highlight the position of the fish while enabling a natural black background. – *Photo by Daniel Geary, Atmosphere Resorts*

#### PRO TIP

"Strong side lighting, called split lighting in the studio, reveals the monstrous qualities of ambush predator fish." – *Alex Mustard*
